## **SPIROMETRY AND FULL PULMONARY FUNCTION TEST**

**Appointment Date:**

---

### **Patient Information**

This test is performed at the Chinook Lung Function Clinic at the Lacidem Building in room 204.

Please arrive on time, the test takes 45 minutes to 1 hour to complete. There is a parking lot right next to the building or park near the chain fence. If you are not able to keep your appointment please call and inform us at 403-327-7675.

Please follow these instructions:

On the **day of the test** please:

- DO NOT** use any puffers or inhalers
- No smoking
- No caffeine products such as coffee, tea, pop, hot chocolate

**Please do not bring children unattended , as there is no childcare available**

This test requires you to breathe through a mouthpiece so that volumes and flow rates of air in your lungs can be measured. The Bronchodilator is given and the test is repeated. Your results are compared with normal values for your age, height, and weight in the report.
